Message From the POLY-L Discussion List

The Comparative Biomaterials Lab at Chapman University is hiring a postdoc to work on the biology, biophysics, and biochemistry of hagfish slime. For more information about the research area, please visit <http://sites.chapman.edu/fudge/>.

More info on the position can be found here: <https://jobs.sciencecareers.org/job/473597/postdoctoral-fellow-at-chapman-university/>

Postdoctoral Fellow must hold a Ph.D. or an equivalent of a doctoral degree in the life sciences by the beginning of employment at Chapman University. The doctorate or equivalent must have been awarded within the last five years and candidate has not exceeded five years of prior postdoctoral experience. Appointment can begin as early as January 2018. Fellows are offered a competitive salary, benefits, research support, and personalized professional development in research.

Applicants should send electronic copies of their CV, research statement, list of publications, and references to Dr. Douglas Fudge at fudge@chapman.edu. Applications should be received before December 26, 2017 in order to receive full consideration, but the position will remain open until filled.

L. Andrew Lyon, Ph.D.
Dean, [Schmid College of Science and Technology](#)
Professor of Chemistry
Chapman University
One University Drive
Orange, CA 92866

Office: Hashinger 215 | [714-997-6930](tel:714-997-6930)
