Step 9. Fill in all information here. For more information on word limits click the full instructions link on the upper right

The screenshot shows the 'Step 2: Title/Body' submission screen. At the top, there is a navigation bar with 'ACS Meetings', 'Malika Jeffries-EI', 'Messages', 'Help', and 'Log Out'. The ACS logo and 'MAPS Meeting Abstracts Programming System Powered by ScholarOne™ Abstracts' are also visible. A sidebar on the left lists steps: Step 3: Properties, Step 4: Authors (selected), Step 5: Disclosures, and Step 6: Review & Submit. The main content area has a title '[POLY] Division of Polymer Chemistry' and a deadline of 'Oct 20, 2014 11:59 PM'. Below the title are two rich text editors for 'Title' and 'Abstract', each with a character count of 0 out of 2500. At the bottom, there is an 'Images and Tables' section with a table for image uploads and a 'Chosen Image(s)' section.

The screenshot shows the 'Step 3: Properties' submission screen. The navigation bar and ACS/Maps logos are consistent with the previous screen. The sidebar now shows Step 3: Properties as the active step. The main content area has the same title '[POLY] Division of Polymer Chemistry'. Below the title, there are two dropdown menus: 'Presentation Type' and 'Symposium', both currently set to 'None selected'. At the bottom, there are buttons for 'Previous Step', 'Save', and 'Save & Continue'. A footer section contains the ScholarOne and Thomson Reuters logos, copyright information for 2014, and contact details for ScholarOne Abstracts.

Step 10. On this screen you can select the type of presentation and symposium.

The screenshot shows the footer section of the submission interface. It features the ScholarOne and Thomson Reuters logos on the left. Below the logos, there is copyright information for 2014 American Chemical Society and Thomson Reuters. It also includes contact information for ScholarOne Abstracts, including patents #7,257,767 and #7,263,656, and links to @ScholarOneNews, System Requirements, Privacy Statement, and Terms of Use. The product version number 4.5.1 (Build 38) and build date Sep 16, 2014 15:00:02 are listed at the bottom.
