

AMERICAN CHEMICAL SOCIETY
Division of Polymer Chemistry

National Meeting Symposium

AEROGELS, FOAMS AND OTHER NANOPOROUS MATERIALS

Fall 2008 National ACS Meeting, Philadelphia, PA

August 17-21, 2008

Symposium Organizers:

Mary Ann Meador, Structures and Materials Division
NASA Glenn Research Center, Cleveland, OH, 44135
Phone: 216-433-3221, Fax: 216-977-7132, maryann.meador@nasa.gov

Nicholas Leventis, Professor, Department of Chemistry
Missouri University of Science and Technology, Rolla, MO 65409
Phone: 573-341-4391, Fax: 573-341-6033, leventis@mst.edu

David A. Schiraldi, Associate Professor, Macromolecular Science & Engineering
Case Western Reserve University, Cleveland OH 44106-7202
Phone: 216-368-4243, Fax 216-368-4202, david.schiraldi@case.edu.

Session Description/Topics:

This symposium will cover various aspects of **nanoporous materials** with particular focus on new synthetic methodologies, characterization and applications. Topics will include both organic and hybrid materials, sol-gel derived and templated structures, membrane materials, insulation materials and new bulk materials through surface functionalization.

Confirmed Invited Speakers

Debra Rolison (NRL), Ilhan Aksay (Princeton), Max Bertino (VCU), Jeffrey Long (NRL), Jeff Sakamoto (Michigan State), Hongbing Lu (Oklahoma State), Alexander Gash (LLNL), Sarah Tolbert (UCLA), George Gould (Aspen Aerogels), Venkateswara Rao (Shivaji University), Bakul Dave (Southern Illinois)

Papers Submission:

Due date: **March 17, 2008**

Submit using **OASYS** @ <http://oasys.acs.org/>:

A preprint is required for all oral and poster submissions
